**Additional Comments or Concerns**

The Teachers have done such a great job since (name) left. I couldn't have asked for better teachers to introduce Nikolas to school
My child's teacher has been an amazing first teacher for my daughters. They have learned and grown so much in this first year.
The teacher has been such a great person. She always helps in what I need. She is always there for the parents, she goes above and beyond what she has to make sure the kids have what they need. If we can't find it she will. She is a keeper. We will miss her when we go to kindergarten. The only thing I didn't like was the speech. To many missed sessions and they don't communicate with the parents. The other speech teachers before would always keep me informed give me things to do at home. This needs improvement.
The teacher has made my daughters first year in school exemplary. My daughter has gained a numerous amount of knowledge. I feel they are definitely ready for kinder
A wonderful program. My child's teacher is one of the best teachers I have ever met. The program is very helpful I love the way it challenges the little minds the things they learn they came home and teach us I recommend this program to people all the time. It's a amazing thing for a child to be able to get a head start educationally.
Activities + Meetings during the work day are very inconvenient for me
Agradesco todas las atenciones de asistentas q maestros para mi hija, es bueno encontrar personas quen se procepan por su bienestar

At first I did not want my child there but I was sadly wrong. My child has done amazing at Carvajal even when I was given the opportunity to send her back to her home school I did not take it because Carvajal has given and taught my daughter ten times more then (school name) ever could
Being a parent is not easy, everyday is a learning process you find out new things to help your kid every day. One thing want the school more proactive is sending note on time not a week late. I always get the note from my child school like two or three days late sometime a week late and I always check my child folder to make sure I don't miss anything. But you guys are doing great job teaching all the kids keep up the good work. Without you guys my kids will not learn as she/he learning now. Thank you
Better sign in procedures sign in twice once w/center then in class then again to swipe ccs card 3 times!
Caravajal is a great school, my son's teachers are great! This year has been a good year. Than his teacher for helping him grow
Carvajal Early Childhood you're doing a great job! Keep up the good. Really looking forward to enrolling my child in 2019.
Christopher has been given a great opportunity to learn from great teacher. I'm so proud of his love to learn new things everyday. His happiness goes along way and enjoys helping like a little teacher. Of course he does get tired and can become a grumpy guy but he doesn't mean to.
Coma madre de familia opine que Head Start es unprograma excelente para la educacion y aprendizaje de mi hija se desarrollo y aprendio muchas cosas excelentes maestras y excelente personal ojala sigan este tipo de programas y gracias.
Do not promote one type of music. They should introduce all types of music during classroom and gym time.
Doing great job!!!
El equipo de Head Star ha hecho un gran trabajo.

Estoy muy contenta de aber tenido a dos de mis hijas en esta escuela y a sido una experiencia muy buena paramis mjas y para mi.
Even though my daughter came in late of the school year, I feel like her being in the Head Start program has helped her to continue on with kindergarten next year. Thank you so much for all your hard work and all that you do for my daughter. Thank you!
For the parents who work, I try everything I can to make it to my child's school functions but a little more notice would be a great help. I am a single parent who works full time. My grandma helps by picking him up for me but she is not the parent. I would like to be more informed.
Gracias Por Sus Servicios!!
Gracias por todo!
Great Job. Always solving a problem and helping us.
Have the teacher schedule follow-up meetings with a parent instead of calling on the phone addressing child's behavior that day. Many times I am at work. I become increasingly anxious, frustrated, knowing very well I can't really help at the time, especially when I am at work. Thank you for everything.
Head Start does amazing things for the children enrolled. I know my child is learning + growing so much w/her teachers at Head Start. I love this program and am very satisfied. Thank You!
Head Start good program my son has learned a lot and I will be happy when he go to kindergarten. He may need work much more but he ready.

<p>Head Start has done wonders for my child! He is more prepared and that makes me happy and grateful. I would try to make the head start meetings more accessible. As a working single parent I couldn't make all the meetings. Other than that this program is overall very helpful! P.S. Daycare after school care would be nice. (single parent)</p>
<p>Head Start &amp; the staff have been beyond helpful to my family and I. I have seen my son blossom. Thank you for all you do</p>
<p>Head Start program is amazing. The program has my child ready for kindergarten. Helped not just my child but our family tremendously as well. I want to thank Head Start fro the opportunity of my child to attend for two years. Thank you Head Start!</p>
<p>Home visits/ parent teacher's conferences are awesome! I feel like I'm with my child at school with them.. Talked to a parent advocate with a question. Never got a call back with and answer.</p>
<p>I am extremely grateful for this program. My daughter has grown in all areas so much. Thankful for her great teachers and this opportunity. Thank you!!</p>
<p>I am just so happy with the teachers in my daughters special education class. They are awesome, I feel comfortable and secure that when my daughter attends school daily, she is well taught and very well cared for.</p>
<p>I am very happy and comfortable when I leave my daughter Jazel at school. I know that she's in a safe and learning environment, Jazel has learned so much she loves coming to school every day.</p>
<p>I am very happy with all the teachers that help my child. The toddler class is the best and I see at home how she learns from Early Head Start. The staff are very patient with my child and her tantrums and her good days!</p>
<p>I am very pleased how far my daughter has come, she has learned so much</p>
<p>I am very pleased with my daughter's academics. She has learned so much I am very proud of her and the teachers. My daughter is much more smarter and has grown her vocabulary. I am pleased. Great job. Thank you!!!</p>
<p>I am very proud on how the school is run by. I feel very confident that my child will learn new thing every day.</p>
<p>I am very satisfied with the Head Start program. I felt it gave me extraordinary opportunities to get involved in my child's education. I feel very blessed to have been in the program. I cannot stress how important and vital the family support worker is to this program. I had the great pleasure of having (name) at our Hillcrest campus. She was a true angel to all the families in the program and especially to my family. She really motivated me as a parent and got me to feel comfortable enough to get engaged in parenting and made me feel confident to talk to teachers and other parents to share things. She allowed me to learn tremendously. She provided me with awesome and helpful information and programs to help my child get the most out of her education. I would not have been able to get the best out of the Head Start program without her.</p>
<p>I am very thankful and satisfied, my daughter (name) came a long way her teachers taught and encouraged he a lot. I can say my daughter is ready for the next grade. You'll have a wonderful staff thank you.</p>
<p>I enjoy the support of teachers, assistants, especially family support services. No concerns</p>
<p>I feel each room should have access to walkie talkie for immediate attention of when they have outside activities. It gives for a quick response time</p>
<p>I feel like head start is a great program for kids and I love that they learn on a day-to-day basis.</p>
<p>I feel more comfortable and connected with my family support worker (name) than my child's teacher. Our family worker is open to understanding and helping out with getting to know my family and our struggler with my sons education.</p>
<p>I feel that what the Teacher do for my Great Granddaughter (name) do for her are help her lots I thank Head Start for everything they do. The teachers have helped (name) in lot of way like how to color and write her name Thank you my god bless both of them.</p>
<p>I feel the Head Start program today has become a helpful resource. As to when I went to Head Start. I believe the Head Start program has come a long way and is doing a great job today</p>

<p>I feel the school menu could be more healthier. I believe there is a lot of processed food like pizza, nuggets, ravioli, etc. I also believe there should be more courses or meetings available for working parents. I was not able to attend one meeting during the day due to work. I also believe services should not be limited. At the beginning of the year I received a voucher for uniform. During the year I was in need of underwear and was denied because my son had already been helped at the beginning of the year.</p>
<p>I feel very comfortable that my child is getting the care he needs. Also I myself and learning a lot</p>
<p>I fell the program is very helpful and has my child ready for kinder and he will be a step ahead of other kids that do not attend an PK program</p>
<p>I have been a part of the Head Start program for 3 years now and I'm very lucky to have such a amazing staff along with the teachers help me help my children. They've done so well throughout their time at Head Start. I love the classes we have on nutrition and parenting along with make and takes also being able to be involved with the school is such a blessing. Knox teachers have done an amazing job with my children I will forever be grateful for having Knox be my children's 1st school I don't know what I would of done without Head Start they've made me a better parent and student</p>
<p>I have had an amazing experience as well as my child here are Carvajal EDED! My daughters teacher is amazing and is caring towards all of the kids. My daughter has had Mrs. (Name) for two years and she has learned so much and is actually advanced for her age. She has prepared her very well for kindergarten and I am grateful to have her as my daughter's teacher.</p>
<p>I have no concerns for Cardenas at this time yall are doing a very wonderful job with my child and I am looking forward to sending my son for his first year there. Thank yall so much for having give my family the opportunity to participate at Cardenas for two years. Once again thank yall so much! GRATEFUL ALWAYS CHEPA family</p>
<p>I have two of my daughters presently enrolled I this program and I am very pleased with all the services in the early child hood program. Both their teachers and their assistance's have been great with my girls and have learned a lot from the 2yrs that she has been here and my little one has been enrolled. Thanks to the wonderful teachers that they both had. Thank you to all the staff at Early Child Hood.</p>
<p>I know budget is an issue But a variety of healthy food not the same lunch every other week. Otherwise great job EISD. Thank You!</p>
<p>I know there is early drop off for people who go in early to work or school. I think it help other parents who work evenings to offer after school care even if we pay a fee.</p>
<p>I love Carroll Elementary this school is so great everyone there is so sweet and caring and they help me and my son every step of the way I really love this school can't wait till next year.</p>
<p>I love Head Start not suggestions needed</p>
<p>I love the head start program but feel teachers need more inter-action with parents.</p>
<p>I love what you children have learned a lot from this program</p>
<p>I loved this Head Start for my child this helps us in so many way thank you.</p>
<p>I myself like many other parents drop off our kids early in the morning. I really thank all who do that for us, receive kids and take them inside the building. A big thanks for that. I still believe it was more efficient last year. I don't know any new modern tools such as computers, lap tops, or tablets but have heard about children using computers and other electronic learning devices at the younger age, if someone teaches them.</p>
<p>I only either want Mrs. (name) or Mrs. (name) to teach (child's name) next year.</p>
<p>I suggest an after school program. Thank you!!</p>
<p>I thank everyone for everything at this school!!! God Bless all!! :)</p>
<p>I think it would be beneficial to provide a walkie talkie for each room in case of emergency or immediate attention. It is helpful when trying to locate another teacher or supervision</p>
<p>I will miss the Head Start program. My daughter and her family have learned a lot together. I'm very proud of my daughter of everything she had learn. Head Start program help me to become a better parent and teacher to my child. My family support worker was/is a wonderful help to my family. THANK YOU HEAD START PROGRAM FOR ALL YOUR HELP.</p>

<p>I wish we could let our children bring their own lunch because most days my child doesn't like the breakfast or lunch so she doesn't eat all day til she gets home from school and by then she is starving and weak. Some days she doesn't want to go to school because she knows that they are having something she doesn't like and she knows that she won't eat. ** Her teachers were fantastic teachers I couldn't ask for anyone better. Thanks</p>
<p>I would like a teacher conference once a month. I've seen a lot of improvement with my son thank you! But I'd appreciate more suggestions if needed. This is why I asked a mandatory teacher conference every month. Most of the time I forget things because I am a very busy single mom, juggling full-time work, school activities, and daycare activities. It's harder for me to keep track of things. I would love mandatory once a month conference calls.</p>
<p>I would like if the kids can take their own lunch cause sometimes they won't eat what they give them there.</p>
<p>I would like to say thank you to the staff, the coaches, the principals, The teachers at Jose Cardenas because without you'll my child wouldn't be Where he is right now Since my child started prek he has learned a lot and I mean a lot he even learned to go potty in the toilet Thank you Jose Cardenas Staff for all the help and support.</p>
<p>I would love if parents were able to attend field trips with their children being that this is their 1st time in school. Also eating lunch with them on occasion would be nice. Thank you for all you do for my girls!!!</p>
<p>If it was not for Head Start my child would not be the little young man he is today! I thank god everyday for this Head Start Program.</p>
<p>If you are able to give me an emergency preparedness, That would be great. Can contact me at (210)XXX-XXXX</p>
<p>I'm very grateful of (name) I believe she went above and beyond for my son! Truly an amazing teacher and role model.</p>
<p>In co-teach I feel there is too many thing going on that my son did not receive as much class help as he could have if he was placed in class with just one teacher</p>
<p>It would be good if they allow the children to bring their own food for lunch and water bottle</p>
<p>It would be nice if we received like a report about our child bi-weekly on how he is doing or what he needs progress in.</p>
<p>It's just a thanks for all the workers at Knox. Everyone does a very good job. (name) and (name) are very amazing with my son</p>
<p>Keep up the good work!! Thanks for all you do with my daughter</p>

<p>Lunch is very inappropriate for the age and likes of my son. Would like to see more kid friendly foods for example mac and cheese, spaghetti, chicken nuggets, fruits like apple slices, tater tots, instead of french fries, eggs for breakfast not just pizza or other bread products.</p>
<p>Lunch needs to be better instead of what the school menu is most kids do not eat the food and that is a concern with all the activities they do</p>
<p>Mas information acerca de las inscripciones y sitios a donde, de be acudir uno, segun corresponda, mirar disponibilidad en las llamadas, que los personas que atienden los telefonos, infomren mejar, me refiero ampliamente ye seon mas amables</p>

Please put list of foods eaten that day on the front door each day. I like to ask what they ate? - What was the veggie, etc. And if it's on a sheet on the door, can verify. Good topic to discuss on the drive home. Also, please send the National Anthem, the flag & all items done each morning + the Spanish one. Would like to practice @ home.

Since my child does not eat everything that is served at school I am concerned he does not eat well while at school. If I could make his lunch at home of course approved by the Head Start Program would leave me at ease knowing my child is well fed and can calmly go about his activities at school

Thank you for being patient with my child. I know he needs hard structure. I do give it but sometimes I give up early. But thank you for everything this school has done for my son, teachers/counselors/family supporters/principals. Thank you all. You guys are awesome great Head Start.
Thank you for everything you do form my children everyday and making it possible for them to come to school and learn
Thank you for participating in my child's success!
The answers given above were given by Grand Mother, in care of child. Mother has full responsibility of child.
The only concern I had this year is that there are teachers in José Cardenas that don't show interest in students anymore. I'm not including Mrs. Cisneros I was very satisfied and still am with her teaching skills. I was meaning Ms. (name) and her assistant Ms. (name) my son started out with them and he wasn't learning anything. I believe you all should take a good look at that. Because of the cause of that they affected my son's self esteem that his teacher he got switched to helped him out a lot. That is all my concern I had the year. Thanks!
The only concerts I have is my son still doesn't talk and he is not potty train yet
The principle should be more knowledgeable on handling bully situations
The program is great! You do an awesome job.
The program itself is great but somehow there has to be a way to get some of these parents more involved with their children. Some parents just take advantage of leaving their kids at school but do not participate with the kids on family fun activities. Another thing is that some of these teachers need more help with the students, not so short handed. And also what is the deal with not being able to ride on the school bus for field trips? What about the parents that do not own a vehicle and want to join their kid? It's not fair at all! Home visits....is it really necessary to have 2 of them? What about the parents that live with relatives...sometimes that makes it a little hard for some of us. In addition, why are parents not allowed to have a little luncheon with their kids at school (in the Head Start program?) It would be nice once in a while to do so. And some of the lunch these kids receive is not all that great I volunteer all the time and some of these little kids don't end up eating anything from the tray due to some lunch being nasty to them. Come on at least some good flavor would be great they are only 3-4 yr olds...give them a break!!! I can go on but I feel I never end up finishing. Please try changing a few things for these little ones...Let's make a difference!
The wonderful staff here always welcomed my child and family with an open heart and open mind. My son has blossomed so much in the last year. My daughter will be starting here next school year and I'm excited to see both my children bloom even more with these amazing group of people to guide them. Keep up the good work!!

Try figuring out better ways to get parent involvement not so much activities but in the educational area basic classes into easy ways of showing kids what they are learning in class. Finding ways that we can get parents involved in school to help in areas. As well as learn at the same time. Teachers who really enjoy the age group and do learn activities that kids look forward to. Some aest don't look to enthusiastic and grumpy all the time their children don't learn or speak to them (Teacher)
Very pleased with the teachers, staff, and would recommend others to join the program. The time my daughter spends here will help her throughout her years of education
We have enjoyed all the personnel and all the help Matthew has received. I can see a big improvement in his speech and manners.
Well I don't have any at the moment
(Name) although she wasn't my family support worker, she was amazing. Her teacher Ms. (name) was amazing. I am beyond happy my child was able to be in her class.
